---

## PROFILE

---

A passionate software engineer with 2 years of experience in developing web applications using React Js, seeking to utilize my technical knowledge and expertise to help the Company create innovative software solutions.

---

## EXPERIENCE

---

**Pumex Infotech Pvt. Ltd. / Software Engineer**

Kochi, Kerala | 04/2022 – Present

- Developed and maintained high-performance web applications using React.js, TypeScript, and Redux architecture, ensuring scalable and maintainable code.
- Designed responsive and visually appealing user interfaces with Tailwind CSS, enhancing user experience, and contributed to live projects with end-to-end development.
- Collaborated in Agile development teams, participating in sprint planning, daily stand-ups, and retrospectives, ensuring timely delivery of high-quality software.
- Acquired knowledge of MongoDB, Node.js, and basic AWS services.

**Pumex Infotech Pvt. Ltd. / Software Engineer Intern**

Kochi, Kerala | 04/2022 – 07/2022

- Developed and implemented features for BillEzy, a utility management application, using React.js for the front-end and Node.js for the back-end.
- Utilized ORM (Object-Relational Mapping) tools to streamline database.
- Assisted in building and optimizing the web pages for a live project using React.js.

---

## PROJECTS

---

- **Armada**  
I have gained valuable experience working with the Armada AI team on the Command Connect platform. My work involved using React with TypeScript, Tailwind CSS, and Redux Toolkit to develop and enhance the platform's frontend.
- **Nutanix University Certification Alliance Portal**  
I gained valuable experience working on the Nutanix University Certification Alliance Portal, where I utilized React JS, CSS, and Redux to develop and maintain the frontend.
- **Recipe Finder**  
Recipe Finder is a deep learning project that detects ingredients from uploaded images and suggests possible recipes using those ingredients. It leverages advanced image recognition to simplify meal planning and cooking.
- **Care and Cure**  
It is a web-based application that provides details about hospitals, offers a platform for online consultations, and facilitates knowledge sharing regarding blood donation requests from users.

---

## EDUCATION

---

**APJ Abdul Kalam Technological University** | *Master of Computer Applications*

09/2020 – 07/2022

- Cumulative GPA: 9.11/10.00

**Calicut University** | *Bachelor of Computer Applications*

08/2017- 08/2020

- Cumulative GPA: 4.44/6.00
- NSS Volunteer

---

## SKILLS

---

- |                   |                         |               |
|-------------------|-------------------------|---------------|
| • React JS        | • React with Typescript | • HTML, CSS   |
| • Javascript      | • Tailwind CSS          | • Bootstrap   |
| • Node JS         | • MySQL                 | • MongoDB     |
| • ORM             | • Redux                 | • Context API |
